**Max rating is always 99...** ADD "(Max LUC = 100, PSI = None)"

MODIFY/ADD **INTELLECT**

Just as STR is a measure of physical capability, INT is a measure of the character's mental and cognitive capabilities.

Having a high INT provides numerous benefits in character generation, helps the Perception Ability and has other uses throughout a campaign when facing challenges requiring some smarts.

Species Maximum Intellect governs the individual's Capacity to learn, manifest as a skill level cap of less than 99 and equal to the species Max INT rating. (INT 99\* does not allow skills of 99\*!) This ruling applies to the likes of the Troglytes of Fed-member planet, Ardana; the K'Zin and some Orions.

Dr. McCoy tells us Troglyte Intellect ratings are nearly 20% below average. Troglytes exposed to unprocessed Zenite are incapable of Doctorate-level learning or greater while affected, whereas the K'Zin are intellectually stunted at the genetic level. Their minds simply cannot process Doctorate-level complexity of reasoning. GM Discretion as to this rule applying to purely, physical-based skills (such as Arts, Dance, or Cbt, H-T-H, etc.).

## Skill Packages

At GM Discretion, different species may have different skill packs. It is up to players to top them off as seen fit.

All skills may be presumed and need not be written on the character sheet unless adding dice rolls to them. Vulcans are highly encouraged to raise their Philosophy skills. While Vulcans don't 'judge' others, one's failure of logic will be called out as matter of course whereas meditation on the IDIC may help a Vulcan persevere emotional surroundings or situations.

“These include but are not limited to Honors such as Starfleet Branch Decorations and non-Starfleet Awards such as from Planetary Governments, Councils, various Associations and other such notable and noble institutions. The Grankite Order of Tactics, Karagite Order of Heroism and Prantares Ribbon of Excellence are likely examples of such.

A Major Award equivalent would be of Federation or Interstellar recognition. A Minor Award example would be Starfleet Command/Planetary-level. A Commendation level example would be of Continental or Local recognition.

Some examples. A key to the City. Honorary members of a local, planetary or interstellar society. (Terratins). Honorary members to a local, continental interstellar-grade organization, league, order, lodge, hall or school. Honorary diplomas. Being named after, persons, places or things. (Leonard James Akakaar, The Daystrom Institute). There are many possibilities to explore.

Under no situation may a member of Starfleet accept financial remuneration in any form. Any such offerings must be deferred, donated anonymously or re-paid in-kind.

Your Gamemaster shall decide the specifics.”

## Purple Hearts.

During creation, it is GM's Discretion for PC/NPCs to pursue therapy for an affected Attribute[s] for each of the years *after* the medal was awarded per "Increasing Attributes", Book 1. Once the previous natural rating has been achieved, further advancement in that Attribute alone is allowed. Unaffected Attributes and all Non-Purple Heart PC/NPCs are forbidden this avenue. The reasoning for extended increases is that once habits are achieved they are maintained. Otherwise revert appropriate Attribute to original Purple Heart rating.

## Reading Purple Hearts

Lifepath Trainers, Contact Team and Aging are similarly notated.

# UFP CITIZEN CAREER PATHS

By no means complete, this should give the GM enough to base new careers from. Occupations such as Doctor, Lawyer and Scientist can be rolled per Star Fleet Officer and Herbert Tables. Apx. 10% of career choices may designate their points, for a variety of sub-specialties.
